2000 - CURRENT

Design Portfolio

<http://mylesholman.com>

I've spent the past 15 years self-educating to advanced skill sets and technical abilities. During this time, I've have had the pleasure of working with hundreds of people on countless projects from multinational corporations, large and small digital agencies and independent business owners across the world. Touching on consulting, planning, branding, UX design, UI design, front-end development, marketing and nearly everything else in between.

TopTal

OCT 2015 – CURRENT

Freelance Designer

<https://toptal.com/designers/resume/myles-holman>

TopTal is an exclusive network of the top 3% freelance designers and software developers in the world. Successfully passing through a rigorous three-month screening process with multiple interviews, portfolio review and test project. Among thousands of applicants that TopTal sees each month, I was invited to be the part of the very first generation of the top UI/UX freelance designers.
